When prompted for a TV provider, use your username and password from one of the participating streaming services above. Below are the steps I used to unlock beIN Sports connect in Roku. Go to the channel store or app store on your device. In Roku, it's called a Channel Store. Search for the beIN Sports Connect app, add it to your device, then open it. In the app, select Sign in from the home screen of your Roku Device app and it will then display the activation code and URL. Using a computer or mobile web browser, go to enter the code. You will then be prompted for a TV provider and username/password. I entered the username and password I used for Vidgo. Once logged in, the TV screen will refresh. You must now have access to all beIN Sports channels through the beIN Sports Connect app. For information about watching other TV channels online, see: How to Stream a Specific TV ChannelIf this article doesn't answer your specific questions, visit our Home Page! We do not receive compensation from companies that try to shake up our product reviews. Unfortunately people go with prices without realizing poor customer service up rainfall prices when your time becomes violated. 1) I signed up for internet and TV bundles. Promised my second TV would be free through their app which I could download on my Roku device. Turns out that's NOT true. Then be told the second TV needs another box of them at 120 bucks! 2) Charged 10 dollars more for my bundle than agreed. Swirling with customer service and got nowhere. Be told that's the way it is. I decided to cancel after spending hours on hold just to get a representative in the wrong department and no help.3) I canceled and went with Hulu. best I can do because they have customer service so i don't spend hundreds of dollars of my time wasting it on customer service. So the actual price isn't really what's being said on the bill. This is a function of how much time and aggravation is going on with your service.4) But wait do I say I cancel? By With it never ends. My bill was never zero and the installation fee was refunded. A week after I canceled with the retention department I was told that I wasn't actually cancelling. Maybe it's a thumbs up from my imagination? So I canceled a second time and this time I got an email cancellation and refund of my TV installation fee. I was told by one representative in advance the cost for the Internet and NOT the TV. Did I mention a lot of representatives just made an answer to get you off the phone?5) But wait did I say I cancel? Well never say never. More than three weeks after I returned my box and two weeks after they received it they sent me an email stating they had not received the box and would charge my credit card \$120.00. I called them and spoke to three departments including the President's office. Apart from providing the confirmation number they need to investigate so a month after the cancellation of this issue is still not closed. 6) So when you read reviews about the service and the price offered take it with a grain of salt. Unless you're poor the price doesn't matter. Your time, energy, and sanity are not. If you continue to sign up despite being warned be careful to document all transactions, conversations, and SAVE receipts! You're going to need it. Their.
