Or off and elegant - the Audi Type font style allows for a wide range of scenarios and moods. In this way, specific applications can be directed to the target group and the message is transmitted more consistently. Even with this flexibility, the Audi Type ensures unified brand awareness across all points of contact - from smartwatches to commercial TVs. Here, several factors stand out more cognitively than the Audi Type Extended. Applied in headlines - from Normal to Bold - this font style is a key distinguishing feature of the brand. The Audi Type font styles set up a simple, clear hierarchy. They are not assigned to any particular model, vehicle category or business sector. Audi Type is available as a file pack with pre-defined font style and as Audi Variable Type. Audi Type terms and conditions of use Audi Type is the exclusive type of the company AUDI AG. All license rights and unique rights to use fonts are reserved for Audi. Used globally for all media, it ensures the special appearance of our brand in all media. The Audi type must be used in accordance with the terms and conditions of use available in the download. Audi Type Variable is a type of type that can be constantly changing in its weight and width. This is special provides the basis for the flexible application of Audi Type. Type styles can be adjusted according to an app's requirements, context, or statement. In digital applications, for example, the Audi Type Variable is very space-efficient due to its flexible font width, which provides the ability to adapt to the width of the visible area (view). Readability and contrast can be improved by adjusting the type weight, and in animation Audi Type Variable offers creative freedom. Audi Type extension, font style for the title, is determined by its font width of 130. If necessary, this width can be reduced to a minimum of 120. Weight type (Normal to Bold) can be selected freely to match the statement. Audi Type turns functionality in commonly used applications such as Adobe Creative Cloud, Sketch etc. and is also available as a web font for use in the digital context. Typewriting can be applied in black or white. Gray scales can be available in a digital context for functional reasons. The size, line spacing, and spacing between text hierarchies can be freely selected. Audi Type extensions are used for headlines and sublines. Typography always appears in kind of ragged, it is best to flush left or flush to the right, and in mixed cases. The ratio between the rounds and the title is flexible. As such, there are no fixed specifications or proportions of line thickness and size between the rings and the title. If the title line is located just above or below the rings, it is aligned with the inner edge of the ring at a specified minimum distance. Use Audi Type for personal text elements: Title and subheadlines in extended, normal to bold, body copied in Audi Wide Type and/or Audi Type, Buttons and text buttons in Audi Wide Type, interactive text elements in Audi Wide Type, Highlights in Bold and Annotation and Text Reference in Audi Type. Audi Type VN (Vietnamese) has a special Audi Type font. Generally this font can only be used for Vietnamese typing. The Latin letters included may never replace the Audi Type. Audi Type recommends Japanese Fonts Fonts available in TrueType and OpenType versions from provider Dyna Comware, www.dynacw.com.hk/en/. TrueType versions can be downloaded directly from online stores. If you would like to order an OpenType font, please contact the sales department of the supplier. Audi type non-Latin typography characters do not appear in capital letters. Typography should not be applied vertically. Typography does not appear with an outline. Unable to apply color liner to typewriting. You can't take that action at this time. You're signed in with a different tab or window. Reload to refresh your session.
